Access Management System
The Access Management System is your choice for medium to large sized access control solutions such as office buildings, educational institutes or hospitals. It supports up to 400,000 cardholders, up to 10,000 doors, up to 200 workstation clients and up to 200 divisions.

Access Control software
Simple, scalable and always available

**Simplicity** Easy to use, operate and expand
- Lite
- Plus
- Professional

Three license packages available for different project needs

- Easy installation & basic configuration
- Intuitive GUI
- Easy-to-use map viewer

**Multiple functionalities**
- Global anti-passback
- Random screening
- Occupancy Limit Control
- Division management
- Mantrap
- Guard tour

**Future-proof investment** High scalability
- up to 400,000 cardholders
- up to 10,000 doors
- Regular software updates

**Threat level management for increased safety on site**
- Up to 15 configurable threat levels
- Initiation of safety measure with one click

**Situational awareness for fast and most efficient reaction**

**Integration via API**
- B Series and G Series
- BVMS and Milestone XProtect
- License plate recognition
- Elevator dispatch systems
- Key management systems
- Biometric verification
- Offline locks compatibility

**Data security and privacy protection**
- Encrypted database and encrypted communication
- Support of OSDPv2 secure channel

**Visitor management**
- Comprehensive application for receptionists
- Self-registration option for visitors
- Host view for employees

**Highest resilience based on three layers**
- First layer
  - AMS server
  - Constant operation
- Second layer
  - MAC
  - Redundant services
- Third layer
  - AMC
  - Offline operation
  - Readers
