

Invented for life

AVENAR panel series 2000 and 8000

Unparalleled connectivity and scalability from small to large-sized installations.

Benefits:

Ease of use

The intuitive seven-inch user interface, the e-matrix, provides a comprehensive view of alerts and maintenance needs, allowing full operation of safety systems, including voice alarms and fire protection equipment.

Scalability

The completely modular system makes it easily expandable and business efficient for customized fire detection, with significant cost reductions.

IoT-ready

AVENAR panel is future proof for the development of smart buildings. High-performance and secure connectivity over smart devices allows for reliable, real-time safety coverage.

Remote services

Monitoring and maintenance checks can be carried out at a distance 24/7, thanks to Ethernet technology and secured cloud-based networks.

Sustainability

The AVENAR fire panel series is completely backwards compatible with previously installed Bosch systems. This also makes retrofits highly cost-effective.

Voice alarm integration

AVENAR panels interface directly with voice alarm solutions. These integration options enable voice-activated and phased evacuation of specific points, such as entrance and exit areas.

AVENAR panel series 2000 and 8000

Applications:

AVENAR panel 2000

AVENAR panel 2000 features enhanced scalability, with a capacity of up to 1016 devices and an option for network connection between panels.

Commercial buildings, metro stations, hotels, logistic centers

AVENAR panel 8000

AVENAR panel 8000 is completely modular offering a versatile solution for medium to large size venues. The platform is flexible, allowing for integration with voice evacuation systems and the design of more efficient and cost-effective panel networks.

AVENAR 8000 keypad

Industry, airports, shopping centers, hospitals, universities

List of products:

Panel and accessories

Product code	CTN	Material description
F.01U.383.886	FPA-2000-SWM	Panel kit standard license, wall-mount
F.01U.383.887	FPA-2000-SFM	Panel kit standard license, frame-mount
F.01U.383.888	FPA-2000-PWM	Panel kit premium license, wall-mount
F.01U.383.893	FPA-2000-PFM	Panel kit premium license, frame-mount
F.01U.327.090	FPE-8000-SPC	Panel controller, standard license
F.01U.352.441	FPE-8000-PPC	Panel controller, premium license
F.01U.327.092	FPE-8000-FMR	Remote keypad
F.01U.349.391	FPE-8000-CRP	Cable set redundant panel controller
F.01U.349.392	FPE-8000-CRK	Cable redundant keypad
