

# ENSURE EARLY DETECTION OVER LARGE DISTANCES

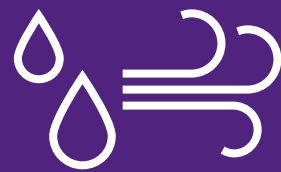

## THERMAL IP PORTFOLIO

In mission critical environments with limited vision due to poor lighting, smoke or complete darkness, Bosch IP thermal cameras make a world of difference due to their combination of Intelligent Video Analytics and thermal imaging.

### Intelligent Video Analytics

Video analytics for extremes

Reliable alerts, even in extreme weather conditions

Video Analytics extremely resistant against shaking

Ensure early detection over large distances (762m)

### Mission critical applications:

Perimeter protection

Traffic monitoring

Ship tracking

### DINION IP thermal 8000

### MIC IP fusion 9000i

### Relevant thermal images

In situations with smoke/dust

In complete darkness

Even when obscured by foliage

Ease of installation

Data security

Bitrate reduction ≤80%
