BOSCH
Invented for life

Completely modular

AVENAR panel adapts to the nature and size of the facility's application.The result is a flexible and tailored system that you can cost-effectively extend. You only buy the components that you really need!

Stay curious for comprehensive versatility...

Fully controllable

Do you want to be in full control over your safety system?

Stay in charge for enhanced safety...

Voice alarm integrating

Excited to check out which voice alarm systems can be connected by Smart Safety Link?

Stay integrated for further info...

Remotely serviceable

Innovative technology from Bosch allows system integrators to provide seamless 24/7 remote support and enhanced performance. It is a secure, efficient way to monitor, maintain and service fire detection equipment remotely.

Stay tuned for additional benefits...

Efficiently networked

AVENAR panel offers a distributed architecture for campus solutions and can be equipped with multiple interfaces for an extended range of applications.

Stay connected for more proficiency...

Future-proof

With a Bosch safety system, your equipment retains its value because AVENAR panel is compatible with your installed base and includes interfaces to legacy systems. This safeguards previous investments as the technologies continue to evolve.

Stay in touch for more tomorrow...

Are you ready for...

BOSCH
Invented for life

AVENAR.

The new extremely reliable easy-to-use completely modular false alarm minimizing hyper-connected IoT-ready fully controllable voice alarm integrating remotely servicable efficiently networked smarter than smart future-proof premium **fire alarm panel.**
