

# Access Management System credential tools

Access Management System (AMS) is a powerful access control software. It offers several web-based tools which can be used to easily and efficiently manage visitor and employee data as well as cards and mobile credentials.

## Credential Management (included)

It's a browser based software that operates in tandem with Access Management System. The credentials can be either physical cards, or virtual cards sent to employees and sent to employee's mobile devices. This software is **included** in the Access Management System license.

	License	Lite	Plus	SMA
AMS Base *Includes Credential Management	License AMS Plus base	-	AMS-BPLU	AMS-SMA-PLUS
	License AMS Lite base	AMS-BLIT	-	AMS-SMA-LITE

## Visitor Management (add-on)

Effective visitor management must enhance building security, protect facilities and employees, and improve users' and visitors' overall experience. The easy-to-use, browser-based visitor management software offers all the benefits for enhancing the visiting process and integrates seamlessly with the Access Management System.

## Mobile Access (add-on)

The integration of the Mobile Access solution streamlines and modernizes your access control system. It allows you to pre-assign access rights to your visitors, guests, employees, or service providers, enhancing security using a device we always carry with us – our smartphone.

SEPARATE ADD-ON TOOLS				
	License	Lite	Plus	SMA
Visitor Management	License Visitor Management	AMS-FVISLIT	AMS-FVISPLU	
	License Mobile Access	AMS-FMOBLIT	AMS-FMOBPLU	AMS-SMA-FMOB
Mobile Access	License 50 Mobile Credentials	MS-X50MOBLIT	MS-X50MOBPLU	MS-X50MOBP
	License 100 Mobile Credentials	MS-X100MOBLIT	MS-X100MOBPLU	MS-X100MOBP
	License 1000 Mobile Credentials	MS-X1000MOBLIT	MS-X1000MOBLIT	MS-X1kMOBP
	License 5000 Mobile Credentials	MS-X5000MOBLIT	MS-X5000MOBPLU	MS-X5kMOBP

## Credential Management

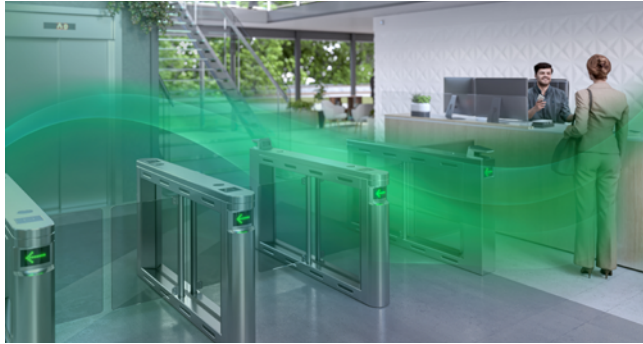

User-friendly dashboard to provide overview of employee data

Quicker credential handling via intuitive and simple user interface

Synchronization with access management database

## Visitor Management

User-friendly dashboard to provide overview of appointments

Quicker visitor check-ins with web-based pre-registration

Reduced wait times with visitor self-registration

## Mobile Access

Easy to use, comfortable and innovative solution

Advanced security with state-of-the-art encryption

Data privacy guaranteed, biometric data on user's smartphone
