

Integrated features with ISS SecurOS™

Video Systems

Video Analytics events and overlays

Events – Alarm triggering

Automatic alarm follow up

Video Analytics while moving (PTZ)

Highest image quality

Starlight technology

Data management and security

HTTPS support

Configuration and command via secured channel

Intelligent data management

Dewarping for panoramic cameras

Fire Alarm Systems

Video-based fire detection (AVIOTEC)

Detect areas with fire or smoke

Modular fire panel: FPA-5000

Digital outputs control

Real-time status monitoring

Areas control

Alarm control

Event monitoring

Video verification

Access Control Systems

Access Management System (AMS)

Real-time status monitoring of devices

Real-time doors monitoring

Door handling

Alarm control

Event monitoring

Video verification

Intrusion Alarm Systems

B Series control panel

Digital outputs control

Real-time status monitoring of devices

Areas control

Alarm control

Event monitoring

Video verification

Building Integration System (BIS)

Access control with BIS and ISS

Double verification with SecurOS FaceX or Auto

Shared persons databases

Event monitoring

Video verification

Modular fire panel: FPA-5000 with BIS and ISS

Real-time status monitoring

Event monitoring

Video verification
