Building Integration System

Your platform for superior security and safety management.

Building Integration System

Building Integration System (BIS) is a robust and reliable security and life safety system for 24/7 deployment. Our all-in-one solution is designed to seamlessly integrate different security subsystems and allows third party applications via open standards and Software Development Kits (SDK).

Extremely reliable building management platform

Seamless integration of Bosch products and others

Ease of operation

Fully embedded access control

Full event log for post-event investigation

Proven technology with more than 3000 installations worldwide
