# Gym/Fitness Center

Stay energetic and focused with superb quality background music

Fitness goals need focus, and a great gym environment requires the right music to keep the practice rhythm and pace. Whether that's a soothing mantra in the yoga section, or a techno vibe in the cardio area, it's clear that a capable system should be able to handle different music and volumes at the same time.

- ▶ The PLENA matrix Digital Sound System, with intuitive configuration and user interfaces for ease-of-use for different zones or sections.
- ▶ Combined with LC2 Premium commercial loudspeakers, visitors will enjoy exceptional sound throughout their fitness journey.
