# Fitness Centre

A great gym environment requires the right music to keep the practice rhythm and pace

Whether that's a soothing mantra in the yoga section, or a techno vibe in the cardio area, it's clear that a capable system should be able to handle different music and volumes at the same time. Enter the PLENA matrix Digital Sound System, with intuitive configuration interfaces for ease-of-use for different zones or sections. Combine it with LB20 Premium commercial loudspeakers, and visitors will enjoy exceptional sound throughout their fitness journey.

- ▶ Fitness area: approx 800 - 1000 m<sup>2</sup> (2624 - 3280 ft<sup>2</sup>)
- ▶ Up to 8 zones
- ▶ Flexible control via PC or iOS app
- ▶ Supports enhancing fitness experience with foreground music, background music, live speech and announcements

The layouts are for general and visual purposes only and should not be directly applied to any installation.
