Release Letter

Product:	<i>Bosch Forensic Search Agent for Milestone XProtect</i>
Version:	1.3.49

This letter contains latest information about the above-mentioned software.

1. General

The Bosch Forensic Search Agent enables Operators in Milestone's XProtect Smart Client to run Bosch forensic searches. The functionality is integrated into Milestone's Centralized search and allows to search for events even if they were not initially configured.

2. Features

The following features are available in "Search" mode:

- Search for retrospectively configured analytics events in Milestone-recorded metadata.

3. Changes

Version: 1.3.49

- Solves a login issue with systems that are using 3rd party Identity Providers (IDP) for user authentication.
- Solves an issue with XProtect 2022R3.
- Solves an issue with 4:3 image ratio search configuration settings.
- Introduces extended logging.
