

BOSCH-AVER SOLUTIONS FOR CONFERENCES

Superb Video Streaming for Training, Seminars, And Professional Meeting Market

AVer Pro AV Cameras Perfectly Integrate with Conference Systems DICENTIS and CCS 1000 D from Bosch

AVer delivers the utmost in value, product quality and features with its live streaming-ready professional PTZ cameras. Equipped with up to 30X optical zoom and IP+HDMI+USB outputs at 4K 60 fps, AVer Pro AV Cameras works seamlessly in tandem with Bosch conference and discussion systems that ensure a fluid and consistent operation, resulting in a unified and holistic user experience for Hybrid/HyFlex conferences and classes.

The Art of Connectivity: BOSCH & AVER

• A Harmony of Audio and Video

The revolutionary digital audio technology of Bosch conference and discussion systems offers high-end audio performance. Paired with award-winning AVer Pro AV Cameras, your communications and collaborations have never been richer. This enhancement in communication ultimately delivers increased productivity and efficiency in your workplace.

• Easy Installation

With a user-friendly approach in mind, the installation process is streamlined, enabling users to swiftly deploy our integrated solution without the need for extensive technical expertise. This not only optimizes operational efficiency but also minimizes the barriers of entry for your staff.

• Lossless, Low-Latency Streaming for Conferencing

AVer Pro AV Cameras' capability to provide lossless and low-latency video streaming is the cornerstone of a successful conference. It elevates the experience, promotes engagement, and fosters effective communication and collaboration among participants, ultimately contributing to the goals of the conference and your organization.

AVer Pro AV PTZ Cameras: The Standouts

- Proven integration, based on ONVIF Profile S, with the CCS 1000 D Digital Discussion System and the DICENTIS Conference System from Bosch.
- Wide range optical zoom options - 12X and 30X.
- IP/HDMI/USB outputs at up to 4K 60 fps, delivering high-quality, lossless, and low-latency NDI HX® video streaming.
- Diverse I/O ports for ease of use: IP, HDMI, USB, and 3G-SDI.
- Hassle-free integration and installation, thanks to plug-and-play and PoE+.
- Works in all situations requiring a ceiling or wall mount design.
- Both white and black color options ensure you can choose a suitable device for your preferences & environment.
