*Multi-Camera Voice Tracking* to
Elevate Meetings, Training & Seminars

## Boost Your Conferences:
## AVer Pro AV Cameras + Conference Systems
## DICENTIS Wireless and CCS 1000 D from Bosch
## for a Powerful AV Experience

AVer Pro AV Cameras, especially for large and extra-large spaces, elevate Hybrid/ HyFlex conferences with seamless integration for DICENTIS Wireless and CCS 1000 D Discussion Systems by Bosch. Packed with up to 30X optical zoom and versatile IP+HDMI+USB outputs at 4K 60fps, these streaming-ready PTZ cameras empower dynamic **multi-camera switching**, ensuring every speaker is always in focus. This collaborative synergy streamlines workflows and delivers a unified user experience for a truly engaging conference environment.

## AVer Pro AV Cameras for Hybrid Conferences

**Seamless, Scalable Integration: Leverage *RESTful APIs* for DICENTIS Wireless and CCS 1000 D Discussion Systems by Bosch**

- Integration with the **RESTful API**: Connect to diverse camera types and unlock advanced auto tracking features.
- Powerful Optical Zoom (12X & 30X): Capture every detail and ensure clear close-ups of speakers, materials, or whiteboards — even in large conference rooms. Ideal for multi-camera switching to dynamically showcase different presentation elements.
- High-Quality Streaming (4K 60fps, IP/HDMI/USB): Deliver smooth, lossless video with minimal delay for flawless remote participation. Perfect for multi-camera switching and seamless transitions between speaker views and content.
- Versatile Connectivity (IP, HDMI, USB, 3G-SDI): Easily integrate AVer cameras into your existing AV setup for flexible multi-camera switching options.
- Hassle-Free Setup (Plug-and-Play, PoE+): Simplify installation and get your multi-camera system up and running quickly, allowing you to focus on delivering engaging presentations.
- Flexible Mounting Options (Ceiling & Wall): Position cameras strategically for optimal multi-camera switching, ensuring all angles are covered in any conference room layout.
- Color Choice (White & Black): Select the camera that best complements your environment, maintaining a professional aesthetic even with multiple camera mounts.
