

Invented for life

DICENTIS Flush

Customize your product in wood, stone, metal or RAL color

The aesthetics of new conference devices sometimes require more than the regular black color option. We offer system integrators, architects and end users customized color, wood, stone or metal designs for the DICENTIS Flush devices.

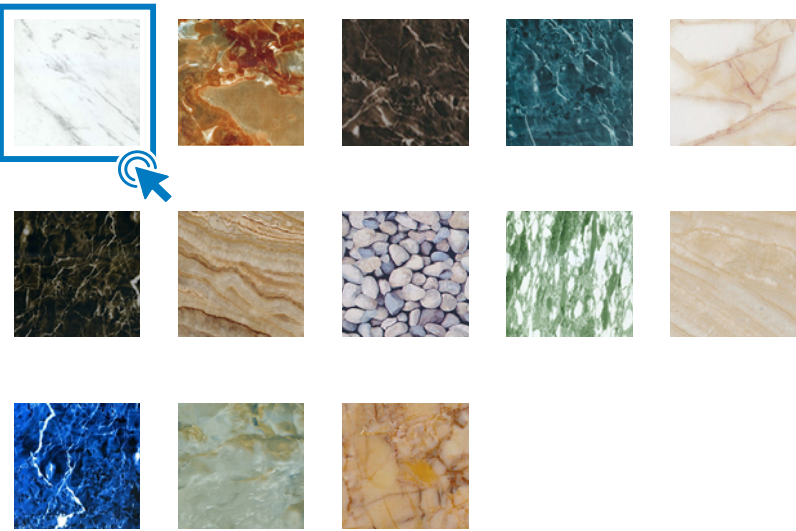

Get in touch with your [sales contact](#) and specify the required DICENTIS Flush modules, quantities and the preferred RAL color or print design. This service gives you great flexibility to fulfill special tender requirements and comes with a three-year warranty for the customization.
