Bosch **Receiver / Panel** Compatibility Chart

BOSCH
Invented for life

Receivers (433MHz) — (IP56 rated)

RF3212E **4.998.800.010**	RADION B810 **F.01U.253.603**	WE800EV2♦ **F.01U.271.805** (kit including 2 keyfobs)	RE005EV2♦♦ **F.01U.271.700** (kit including 2 keyfobs)	HCR-15-AF 4CH standalone **F.01U.271.581** (kit including 2 keyfobs)	HCR-100 4CH standalone **F.01U.271.580** (kit including 2 keyfobs)
Compatible with all RADION RF devices	Compatible with all RADION RF devices	2 onboard relays	2 onboard relays	4 onboard relays	4 onboard relays
Integrated speaker beep/strobe flash	Integrated speaker beep/strobe flash	Programmable speaker beep /strobe flash	No strobe flash. Speaker beeps but not on ICP-404	Supports up to 22 standalone keyfobs	Supports up to 22 standalone keyfobs
		Supports up to 22 standalone keyfobs	Supports up to 22 standalone keyfobs	Connect to a zone on panel set to KEYSWITCH	Connect to a zone on panel set to KEYSWITCH

Keyfobs

RFKF-FB **F.01U.253.609** RFKF-TB **F.01U.260.847** HCT-4UL **F.01U.271.583**	RFKF-FB **F.01U.253.609** RFKF-TB **F.01U.260.847**	HCT-4 **F.01U.271.582**	HCT-4 **F.01U.271.582**	HCT-4 **F.01U.271.582**	HCT-4 **F.01U.271.582**

Panels

	RF3212E	RADION B810	WE800EV2	RE005EV2
Solution 6000	255 USERS only learnt to panel 1 Receiver on panel OR 3 on CM195 Connects to **IN** on PCB	-	-	-
Solution 16 ICON	48 USERS only learnt to panel 1 Receiver on panel OR 3 on CM195 Connects to **IN** on PCB	-	-	-
ICP-CC488	8 USERS only learnt to panel 1 Receiver only Connects to **12V, IP, GND** on PCB	-	-	Up to 22 KEYFOBS learnt to receiver 1 Receiver only Connects to **12V, GND, CLK** on Codepad Bus
ICP-CC404*	-	-	8 USERS only learnt to panel 1 Receiver only Connects to **3 PIN Block labelled WE800** on PCB	Up to 22 KEYFOBS learnt to receiver 1 Receiver only Connects to **12V, GND, CLK** on Codepad Bus
Solution 2000	-	-	22 USERS only learnt to panel 1 Receiver only Connects to **3 PIN Block labelled WE800** on PCB	-
Solution 3000**	-	32 USERS only learnt to panel 1 Receiver only. Up to 8 Repeaters Connects to **SDI-2 BUS** on PCB	22 USERS only learnt to panel 1 Receiver only Connects to **3 PIN Block labelled WE800** on PCB	-

NOTES:

♦WE800EV2 comes with 2 pre-learnt keyfobs. Extra keyfobs must be learnt into the RECEIVER as well as the CONTROL PANEL.

♦♦RE005EV2 comes with 2 pre-learnt keyfobs. Extra keyfobs must be learnt into the RECEIVER.

*WE800EV2 and RE005EV2 Receivers can work simultaneously on the ICP-CC404.

**Solution 3000 can use either the RADION B810 or the WE800EV2 Receiver but not both at the same time.
