Integrated Security, Safety and Access Control Solution

Visitor Management and Time & Attendance

Bosch Security Systems and Insyres

- ▶ Access control, visitor management and time and attendance solution
- ▶ Quick visitor's registration
- ▶ Preliminary permit requests and approvals via network or Internet
- ▶ Granting temporary or permanent access
- ▶ Visitor control based on black list
- ▶ Creation & verification of photo Id's/documents of visitors
- ▶ Visiting history accessible online and comprehensive reporting for statistical analysis
- ▶ Material/Assets transfer control

Bosch Building Integration System integrated with Insyres VisitorControl delivers a comprehensive access control solution covering a visitor management system as well as time and attendance.

This solution allows for a fast, easy and safe registration and control over company visitors and their cars, manage requests of entry permits (even online) and control company assets. It can track when guests arrive, limit where they are allowed to go, control the length of their stay and even screen them against publicly available background data.

The employees working time and attendance control feature allows to analyse, plan and control the company employees or group's attendance. Vacations, sick leaves and business trips are fully supported.

It guarantees maximum control over the guests and employees in the building, a key aspect to keeping it safe and secure.
