

ID Scanners

Fast and smooth integrated solution with ID scanning and reading

By integrating Adaptive Recognition’s advanced ID verification solutions into the Bosch Access Control Software AMS or BIS, you can take the next step towards achieving a fast and convenient Visitor Management.

The ID document readers of Adaptive Recognition are fully compatible with Bosch’s Visitor Management and provide a fast and accurate document reading, allowing the Visitor Management to quickly and efficiently register guests. On top of that the joint solution can also create allowlists, ensuring that only those who have clearance - by being pre-registered or employed by the company - can enter highly-secured facilities.

In addition to that, Adaptive Recognition’s ID document readers can read all ICAO standard ID travel documents, including identity cards, passports, driver’s license,

residence permit and all documents which have MRZ lines.

System integrators looking to create a joint solution - like the Adaptive Recognition and Bosch system - will also enjoy our ID document readers for their integration-friendly nature. Regardless of the facility, all access control systems managed by Bosch are now fully compatible with Adaptive Recognition’s ID scanning solutions.

- ▶ Fast and accurate data capturing
- ▶ Full compatibility with Bosch’s visitor management systems
- ▶ Interchangeable equipment
- ▶ Future-proof hardware and software

Combo Smart Kiosk

Combo Scan

Compatibility

Adaptive Recognition	Bosch Security and Safety Systems
▶ Osmond	Access Management System 4.0 and higher
▶ Combo Scan	Building Integration System 4.9 and higher
▶ Combo Smart Kiosk	

Osmond

Airports

Industrial plants

Governmental buildings

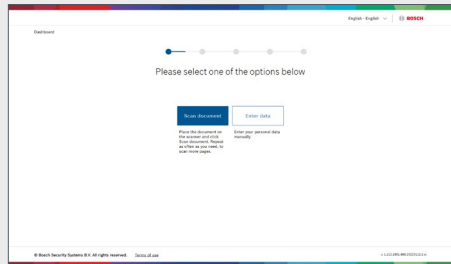

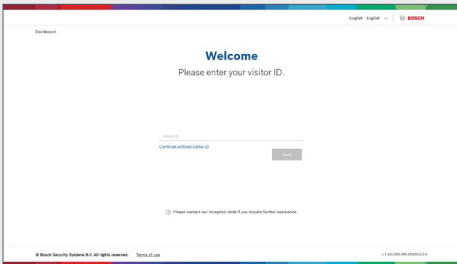

Commercial buildings

Key features

- ▶ Evaluation of events and generation of alarms
- ▶ Information about interruptions
- ▶ Low false alarm rate
- ▶ Bosch BIS Alarm Management
- ▶ Bosch BIS workflow management

Visitor Management facilitates easy scanning of ID documents

Bosch Security and Safety Systems is a leading global supplier of security, safety, and communications products, solutions and services. Protecting lives, buildings and assets is our aim. The product portfolio includes video surveillance, intrusion detection, fire detection and voice evacuation systems as well as access control and management systems. Professional audio and conference systems for communication of voice, sound and music complete the range. Bosch Security and Safety Systems develops and manufactures in its own plants across the world.
