

MIC IP cameras

Made for extremes

The MIC IP family of extremely rugged moving cameras is built to perform in practically any environment.

MIC IP starlight 7100i

MIC IP ultra 7100i

MIC IP fusion 9000i

Specifications

| | H.265 | Optional illuminator | 120dB | 30x | 12x | Thermal imaging: 0 Lux | starlight | 4K UHD | 1080p | optical image stabilization |
|------------------------|-------|----------------------|-------|-----|-----|------------------------|-----------|--------|-------|-----------------------------|
| MIC IP starlight 7100i | ● | 550m | ● | ● | | | ● | | ● | |
| MIC IP ultra 7100i | ● | 300m | | | ● | | | ● | | ● |
| MIC IP fusion 9000i | ● | | ● | ● | | ● | ● | | ● | |

Intelligent Video Analytics

Reliable alerts, even in extreme weather conditions

Video Analytics extremely resistant against shaking

Video content analysis over large distances

Analytics while moving

Intelligent Tracking

Camera Trainer with machine learning functionality

Metadata fusion

Extremely robust

High impacts

IK10
IEC 62262

Shock and vibration resistant

IEC 60068
MIL-STD-167-1A

Withstands challenging weather conditions

IP68 UL Type 6P
CORROSION PROOF
ISO 12944-6: C5-M (High)
NEMA-TS2
MIL-STD-810G

- Ease of installation
- Data security
- Bitrate reduction ≤80%
